## ANCHORMATE® II

Features non-slip action with independent brake and clutch springs. For use with anchors up to 18 lbs.

- Construction: Heavy gauge steel with electrostatic powder coated paint finish and self lubricating nylon rollers
- Line Capacity: 150' of 3/16" nylon braided rope • Installation: 3-point bracket on reel to fit flat or curved hulls; bow fixture will fit on any flat surface • Turn the control button to drop anchor quickly and silently • Reel in without worrying about the handle spinning if the hand slips
- The exclusive ANCHORMATE® II features a patented bow fixture which has a unique pivot arm that eases the anchor up and over the front roller for the added safety of horizontal storage • Safety chain for increased protection in rough or pounding waters.
- Base Plate size is 3 1/4"W x 9 1/2 'L. Overall size is 13" • Anchor, rope and mounting hardware are not included
