VERY LIMITED QUANTITIES!

HUMMINBIRD 500 Series™

Outstanding performance and incredible value come together in the Humminbird® 500 Series™. See everything on the full-colour 4.5" displays or the 5" monochrome displays with up to 640 vertical pixels for a crystal clear view. With a screen that size, it's easy to take advantage of versatile DualBeam PLUS™ Sonar and exclusive Humminbird SwitchFire™ technology; sensitive enough to track a jig down to 70 feet and separate fish as close as 2.5" apart.

FEATURES: • SwitchFire™ Sonar – with two unique modes: — Clear Mode; Time Variable Gain (TVG) software sifts through sonar returns to display only fish and structure — Max Mode; watch as the sonar returns explode from the screen in amazing detail. See the tiniest subsurface object (even thermoclines/ water currents) • Split Screen Zoom • Custom Digital Readout Selection • Custom View Selections • Selective Fish ID+ • Real Time Sonar • Sonar Echo Enhancement • 2-1/2" target separation • Water Temp included • X-Press Menu System • Backlight • Waterproof • Quick Disconnect mount
